The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

PACIFIC GAS AND ELECTRIC COMPANY

All through the West, he's your car's best friend

...hope you see a lot of him!

If you're like a whole lot of Western motorists, you've learned by long experience that the best friend your car can have is the man at your independent Chevron Gas Station or your Standard Station.

Just look at the list of services on the right. This isn't just for show. These are things he'll actually *do*—whenever you give him the chance. He knows it's good business sense to treat your car to the best of care. That way he knows you'll be back.

If you haven't yet formed the "Car-Saver" service habit, start now. And don't feel that you must buy something every time you come in. Your "Car Savers" offer these services as a way of expressing their appreciation for the times you *do* come by for Chevron Supreme Gasoline, RPM Motor Oil, or necessary lubrication.

"CAR SAVER SERVICE"
includes all or any of these

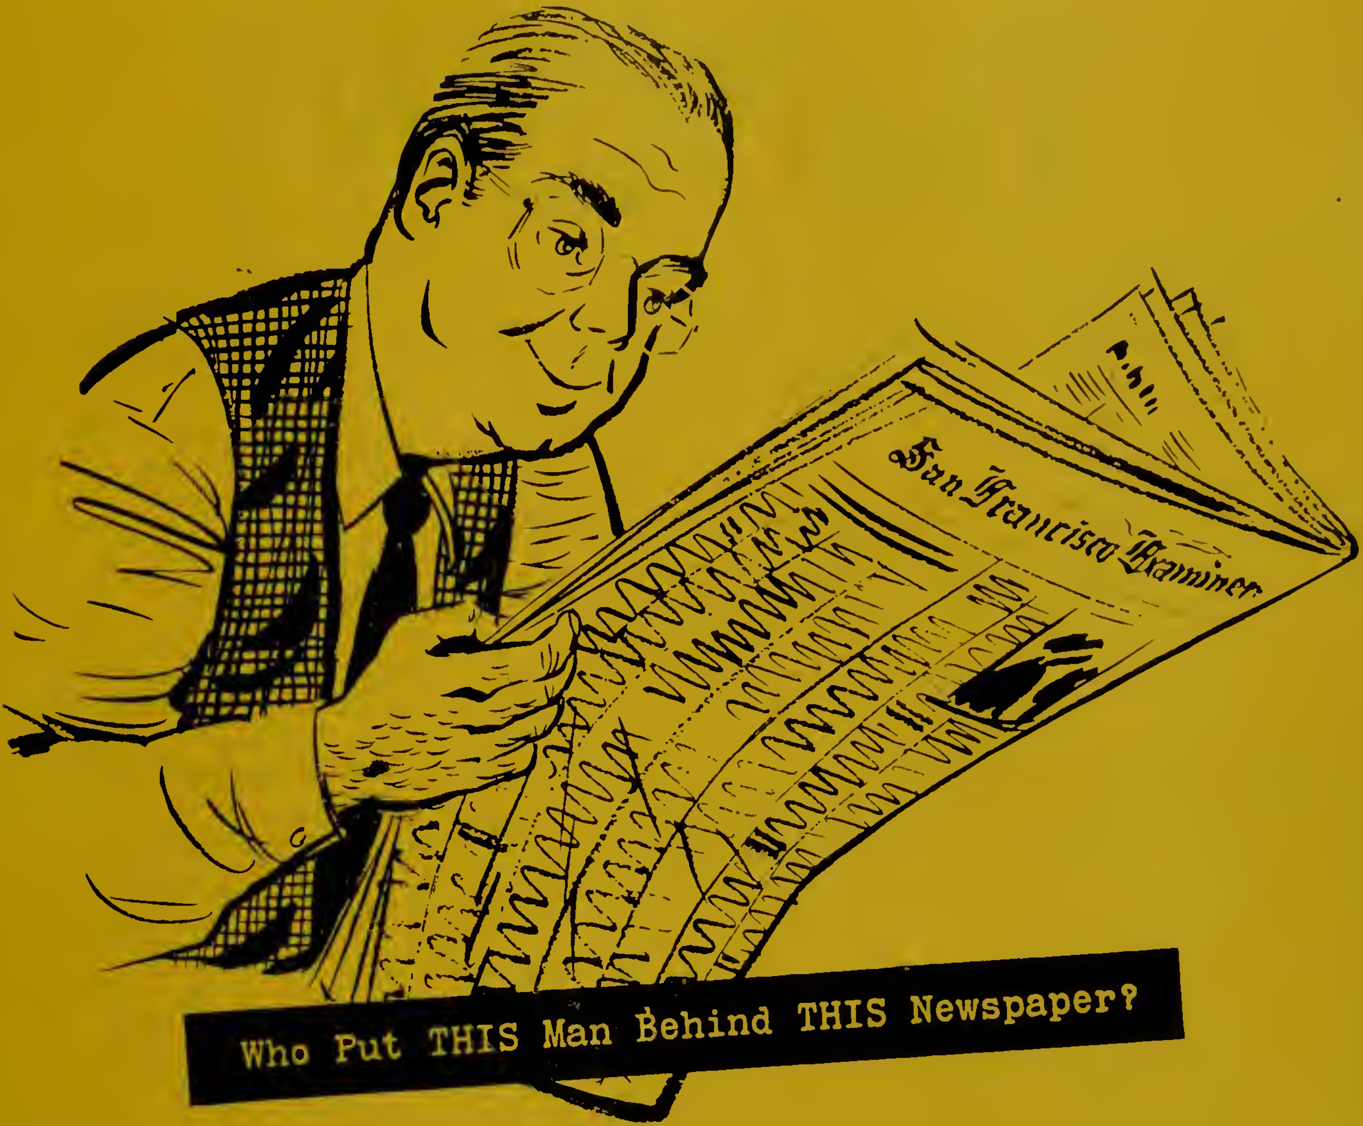
FOR local, national and world news—accurately reported and responsibly analyzed—Northern Californians read, and will continue to read the West's most widely quoted metropolitan newspaper

The San Francisco Chronicle



San Francisco Examiner
Who Put THIS Man Behind THIS Newspaper?

Nobody.

He's there because he wants a newspaper and this particular one does the best available job of amusing and informing him. He chooses his paper from preference via experience—then he reads it.

That's important. One man buys a paper for its sports coverage, or for the job of covering national news it does; another looks for the biggest want ad section or Dagwood and Blondie.

Every reader sets his own requirements.

When more people buy one newspaper than any other—and buy it consistently, that newspaper is doing the best job all around of putting what local people want into its pages.

Only the most complete, most interesting paper gets the lion's share of readers.

In San Francisco and the Bay Area, more people have bought one paper than any other every year for 63 years.

The NEWS

San Francisco's Leading Home Newspaper

1. Editorial

The NEWS is noted for thorough coverage, clear reporting and balanced views. It is outstanding in its service to the community.

2. Circulation

The NEWS is San Francisco's home-delivered newspaper—delivered to more homes than any other daily.

3. Advertising

For 13 years The NEWS has carried more national advertising accounts placed by local advertisers and agencies than any other San Francisco daily.

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

A STATEMENT
OF
ADVERTISING PRINCIPLES

1. **Good Advertising** ~ aims to inform the consumer and help him to buy more intelligently.

2. **Good Advertising** ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. **Good Advertising** ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. **Good Advertising** ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

"A Real Necessity in Every Office"—The City Directory

CITY DIRECTORY USES

1. SALES PROMOTION:

a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b. Leads—

Determining parts of city best suited for increasing business. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d. Building mailing lists and direct mail campaigns—

1. List of local people (Neighborhood List) within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.

2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.

3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmanagers, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.
   Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. CREDIT:

a. Verifying customer's statements and information.

b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

FOR EVERY BUSINESS

d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer). The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. DELIVERY AND SHIPPING:

a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

4. PURCHASING:

The complete classified business section in the back of this directory, makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. GENERAL INFORMATION:

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.
